Trichy, Tamil Nadu, India

Career Objective

Information Technology undergraduate with hands-on experience in Java, Full Stack Development, Cybersecurity, Networking and Embedded Systems. Built AI-based and wireless security applications using Java, React, Node.js, ESP32 and MySQL. Passionate about developing secure and scalable software solutions.

Education

Kongunadu College of Engineering and Technology B.Tech in Information Technology	2024–2027 CGPA: 7.08 (up to 6th Semester)
Kongunadu Polytechnic College Diploma in Mechanical Engineering	2022–2024 92%
Government Higher Secondary School Higher Secondary Certificate (HSC)	2021–2022 50%

Technical Skills

Programming	Java
Web Technologies	HTML, CSS
Database	MySQL, MongoDB
Big Data	HDFS, Apache Pig
Operating Systems	Windows, Ubuntu, Kali Linux
Tools	Git, GitHub, Wireshark, Arduino IDE
Core Subjects	DBMS, Computer Networks
Soft Skills	Problem Solving, Communication, Teamwork, Critical Thinking

Projects

De-authentication Detection System in Open Networks

ESP32, Arduino IDE, C++, Wi-Fi Packet Sniffing, OLED Display

- Built an ESP32-based wireless security monitoring system for detecting Wi-Fi deauthentication attacks.
- Implemented real-time packet sniffing and IEEE 802.11 management frame analysis.
- Generated OLED alerts and attack notifications for improving wireless security awareness.

Wi-Fi De-authentication Device (Educational Purpose)

ESP8266, Arduino IDE, C++, OLED Display

- Developed a wireless monitoring device capable of analyzing Beacon, Probe, and Deauthentication frames.
- Implemented packet sniffing to identify suspicious wireless activities.
- Displayed network statistics and security alerts on an OLED screen.

Forest Fire Prediction System

React, Node.js, Python, REST APIs

- Developed an AI-based forest fire prediction system using environmental and historical datasets.
- Implemented live heatmap visualization for monitoring fire risk.
- Integrated Google Maps, Email, and WhatsApp alerts for emergency response.

Internship

Full Stack Developer Trainee

e-soft IT Solutions

June 2025

- Developed responsive web applications using HTML, CSS, JavaScript, and Java.
- Connected frontend applications with MySQL databases.
- Implemented CRUD operations and performed testing and debugging.
- Collaborated with developers to build reliable software solutions.

Certifications

- Infosys Springboard – Front End Developer
- Fundamentals of Cyber Security
- AI & DS Hackathon – 1st Prize
- IT Project Expo – 2nd Prize

Achievements

- 1st Place – Artivers 3.0 Hackathon (College Level)
- 2nd Place – Tezario 3.0 Project Expo (College Level)

Extra-Curricular

- Practiced networking and cybersecurity labs using TryHackMe.
- Participated in coding contests, hackathons, and technical events.
- Continuously learning Software Development, Networking, and Cloud Computing.

Areas of Interest

Software Development | Full Stack Development | Java Development | Cybersecurity | Networking | Cloud Computing
